

RESEARCH OVERVIEW • Mechanism → falsifiable hypotheses → executed actions → traceable evidence

EXECUTION GATES

0 Audit → 1 Layout → 2 Theory → 3 Model & pilot → 4 LIBERO → 5 RoboTwin → 6 Systems → 7 Paper

EVIDENCE CHAIN

Pinned config + source hash → per-episode / per-run raw trace → paired statistical report → generated tables, plots & real rollout videos

Design schematic. H1-H4 are hypotheses; arrows specify required causal paths. Completion is governed by recorded stop/go checks.
